10:00 am – 5:20 pm Seminar (Event No. 283)

Jung and Bion: Intersecting Vertices

Mark Winborn, PhD

content:

Jung and Bion: Intersecting Vertices will examine the primary areas of correspondence, difference, and complementation between the theories and methods of C.G. Jung and Wilfred Bion. The seminar will also include an exploration of significant themes from prominent post-Bionian authors, particularly those of Giuseppe Civitaresse and Antonino Ferro. Implications of their theories for Jungian clinical practice will be explored. To further consolidate understanding, the seminar will include live supervision of case material allowing a contrast between Jungian and Bionian approaches to unconscious material in the consulting room.
